wasnington, D. C., July 17.—A statement was prepared at army headquarters to-day and given out for publication in which it was said:

"There has been some discussion in the press recently relating to an alleged difference of opinion regarding the number of troops to be sent to the Philippine islands in the first instance. Then follow a number of letters from General Miles and General Merritt, in which each reccommended what troops he thought necessary to be sent to the islands.

These estimates, according to the letters, ranged from 14,400 to 15,000.

In conclusion the statement says:

"It thus appears there was no controversy regarding the "number" of troops to be sent, General Miles in fact heving designated more than General Merritt called for, but only a difference of opinion as to the composition of the force, General Merritt designated more than were designated where the sent of the composition of the force, General Merrit design to have more regulars than were designated by General Miles.

"Certain newspapers have attempted to show that General Miles did not want more than six thousand troops to be sent to the Philippines under General Merritt, but the above official correspondence shows this not to be the fact.

This, the Baptist prenchers, who conduct six meetings every Saturday night, decided was a blow at religious liberty. Under the leadership of Dr. Broughton, the ministers of this denomination appeared before the City Council this evening and succeeded in having the newly formed ordinance, regulating street preaching, killed.
